Professional Summary

Mobile Application Developer and Full Stack Developer with 5+ years of experience specializing in cross-platform enterprise applications using React Native, Flutter, and Node.js. Expert in AWS cloud services, Docker containerization, CI/CD pipelines, and Agile methodologies. Successfully delivered and published 20+ mobile applications on App Store and Google Play. Proven track record in building scalable, performant solutions for logistics, e-commerce, and fintech sectors.

Professional Experience

ABC LOGISTICS   May 2024 - Present

Mobile Developer | Full Stack Developer

- Developed and deployed enterprise logistics tracking mobile applications using React Native (TypeScript)
- Architected cloud-based backend infrastructure with AWS services (Cognito, API Gateway, Lambda, DynamoDB, S3, SNS/SQS)
- Built RESTful APIs and microservices using Node.js, Express, MongoDB, and MSSQL
- Managed containerization and deployment processes with Docker and Docker Compose
- Implemented accounting integrations, automated invoicing, and workflow automation using n8n
- Led Agile/Scrum processes and sprint planning using JIRA

TRDSOFT   September 2023 - April 2024

Mobile Application Developer

- Developed B2B e-commerce platform "Yenitoptanci" and campaign tracking app "OPP" using Flutter (Dart)
- Created 3 mobile game prototypes using Unity3D and C#
- Built AR-based educational application "LearnAR" and published on app stores
- Implemented state management (Provider/Bloc) and clean architecture patterns

PRASOFT   October 2021 - April 2022

Mobile Developer & Digital Marketing Specialist

- Developed cross-platform accounting application "PraNomi" using Xamarin and .NET MAUI

- Managed App Store and Google Play publishing processes

- Implemented ASO optimization and digital marketing strategies

T-SOFT   September 2020 - June 2021

Android Software Developer

- Developed AR (Augmented Reality) applications using Java and Android Studio

- Implemented "Try Product at Home" AR feature for Arzum brand

- Integrated ARCore SDK and optimized 3D model rendering

Technical Skills

Mobile Development

- React Native & TypeScript
- Flutter & Dart
- iOS & Android Native
- Redux, MobX, Provider, Bloc
- Firebase Services
- App Store & Play Store Publishing

Backend & Full Stack

- Node.js & Express.js
- RESTful API & GraphQL
- MongoDB, PostgreSQL, MSSQL
- Microservices Architecture
- JWT Authentication
- WebSocket & Real-time Systems

Cloud & DevOps

- AWS (Cognito, Lambda, S3, DynamoDB)
- Docker & Docker Compose
- CI/CD Pipelines
- n8n Workflow Automation
- GitHub Actions
- Monitoring & Logging

Project Management & Tools

- Agile & Scrum
- JIRA & Confluence
- Git & GitFlow
- SourceTree
- Figma & Adobe XD
- Unit & Integration Testing

Featured Projects

ABC Logistics Ecosystem

Enterprise logistics tracking system - React Native, AWS, Node.js

Zirve Integrator

Full-stack accounting integration platform - TypeScript, React 18, Node.js, MongoDB

Yenitoptanci B2B

E-commerce mobile platform - Flutter, Provider, RESTful API

LearnAR

AR-based educational app - Unity3D, ARCore, C#

PraNomi

Accounting management system - Xamarin, .NET MAUI

n8n Automations

Accounting integration, SMTP/XML processing, Cron jobs

Education

Kahramanmaras Sutcu Imam University	**2021**
Electrical & Electronics Engineering	GPA: 2.90/4.00

Certifications & Training

• AWS Certified Cloud Practitioner (In Progress)
• React Native Advanced Patterns
• Docker & Kubernetes Essentials
• Agile & Scrum Master Training

Additional Information

• Languages: Turkish (Native), English (Professional Working Proficiency)
• Military Service: Completed (Reserve Officer - August 2022 - August 2023)
• Availability: Immediate
• Work Authorization: Authorized to work in Turkey, open to relocation
